

airmation

ENGINEERED CONSTRUCTION PRODUCTS

Specialized equipment for controlled application of paint, primer, bonding agent.

**Reference sector:
Appliance industry, Building, Aerospace,
Automotive**

237200-EM05Px

Complete equipment
suitable for fluid mixing, recirculation in tank
and supply to centralized process tank

Full safety execution for direct process from 200 lt standard drum
complete with pneumatic panel and controls.

Pneumatic motor pump Airmation series 920
for centralized supply to process machines
(suction phase from centralized mixing station)

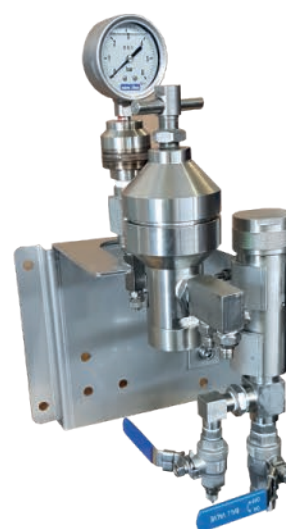

Airmation 237200-EM05Px

equipment in plant context with roller conveyor:

- easy positioning of 200 lt drum
- continuous phases of mixing,
- continuous recirculation in tank
- refilling to centralized supply tank.

Delivery and recirculation line close to coating machine.

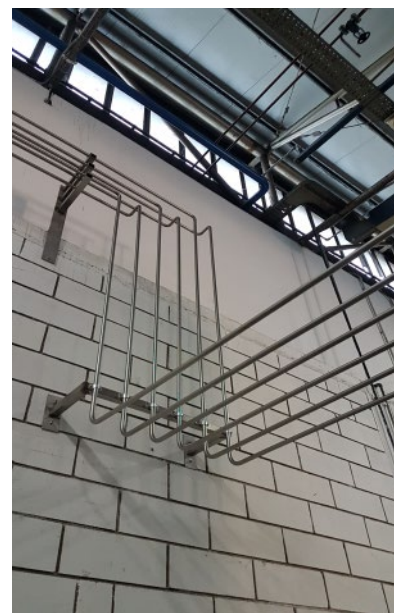

462-228600 series

Flow control component including hydraulic bellow device

Complete mixing equipment
Centralized pumps supply system for feeding to automatic coating machine (rigid line expansion up to 900 mt)

Centralized supply and recirculation line - calibrated tubes AISI 316SS

Centralized mixing station (std capacity 400 lt)
Complete with:
- tank capacity with equipped top covered cap - all stainless steel
- level reading device (ceramic coated version)
- mixer with 4 special geometry blades (piloting for inverter)

Installed delivery and recirculation line treated with Nitrogen flushing

OPTIONAL FOR MIXER:
Control device for speed monitoring (rpm)

PA-110-P10

PA-110-P08-R

Complete selection of automatic atomization guns:

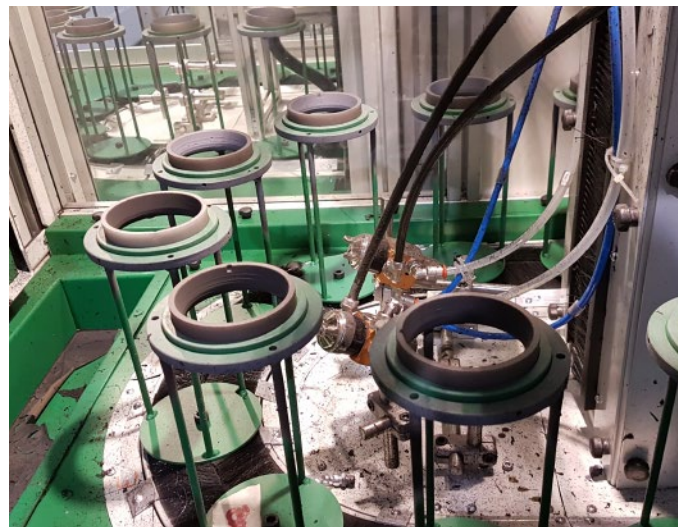

- high performance series
- self cleaning obturator
- fluid recirculation through atomization head
- version with integrated base for connections

PA-130S-Pxx

Coating machine direct connected to centralized plant.

Inside coating cabin with atomization gun PA-210xx.

SPECIALIZED COMPONENTS FOR PLANT INTEGRATION

PEB 462-AM6-1
Panel for flow delivery ml/min
and pressure visualization

CPT 4511 Micro flow sensor
in line flow meter

SPF-07-ES09-4x integrated modul for filtration,
pressure control and recirculation

462/238630-PN-ESxx
Filtering selector
and pressure regulator.
Proportional version.

SPF-07-ES09-12 High efficiency filtration unit

Specific technical sheets available.

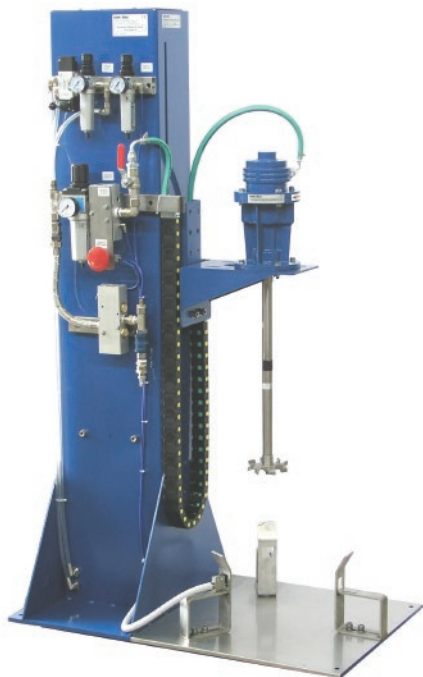

BASE SELECTION EQUIPMENT FOR MIXING AND SUPPLY OPERATIONS

312030-EMxx mixer 200 Lt

312420-EM3x-E supply-mixing 200 Lt

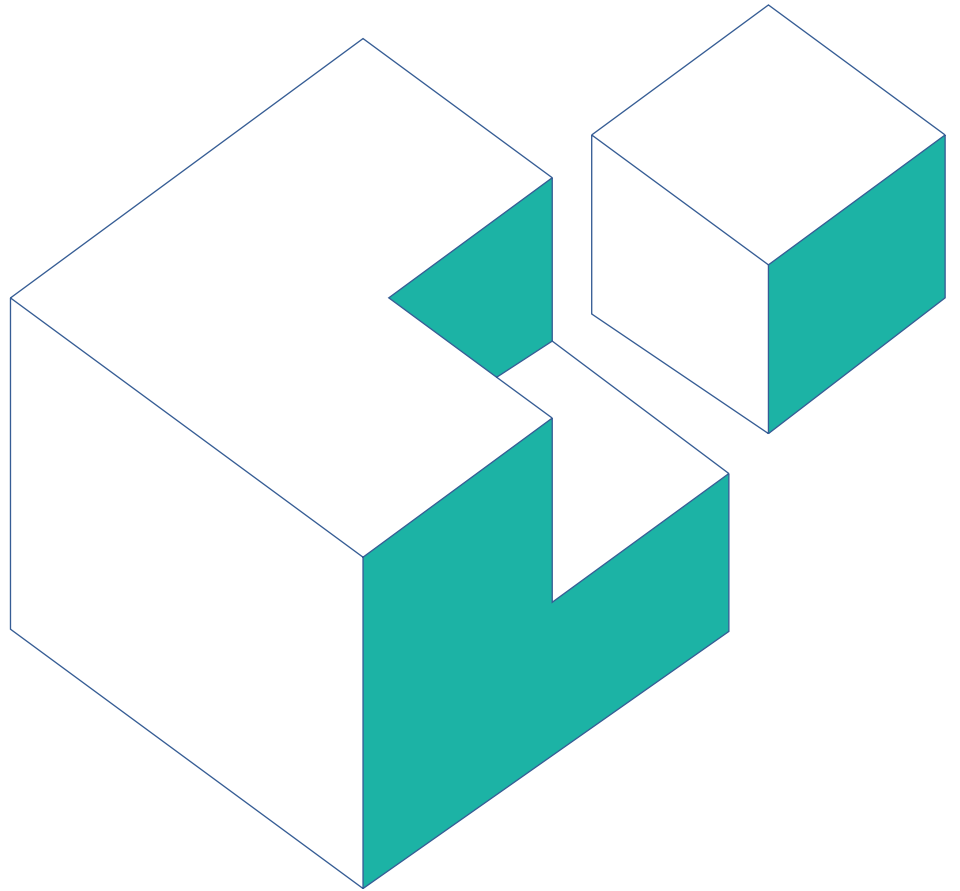

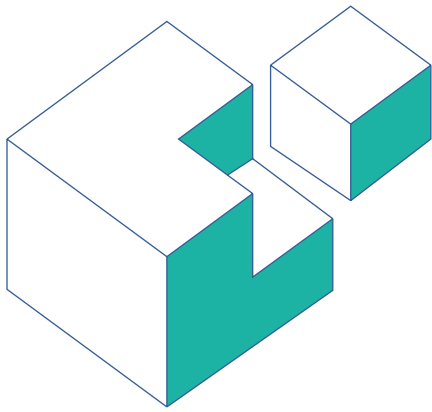

237015-EM03Px mixer 30 Lt

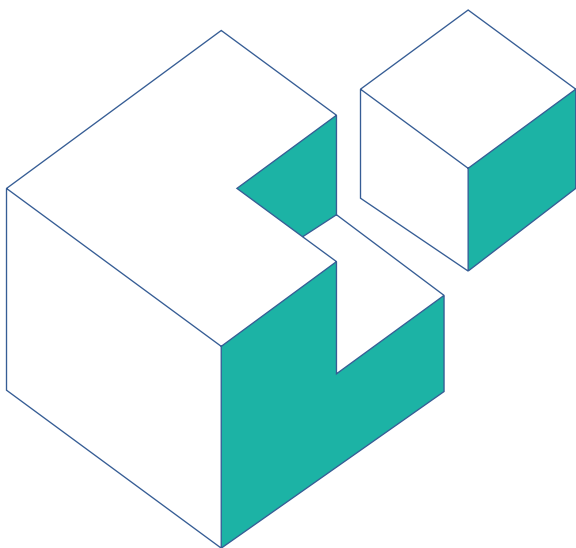

734758-26x supply-mixing 30 Lt
